**Re: Application of EOG Resources, Inc. for administrative approval of an unorthodox well location for its Convoy 28 State Com No. 704H Well in the W/2 E/2 of Sections 28 and 33, Township 24 South, Range 33 East, N.M.P.M., Lea County, New Mexico.**

Dear Mr. Catanach:

EOG Resources, Inc. (OGRID No. 7377) seeks administrative approval of an unorthodox well location for its **Convoy 28 State Com No. 704H Well** (API No. 30-025-44258) to be completed within the WC-025 G-09 S243336I; Upper Wolfcamp Pool (98092) underlying Sections 28 and 33, Township 24 South, Range 33 East, N.M.P.M., Lea County, New Mexico. This well will be drilled from a surface location 538 feet from the North line and 1635 feet from the East line (Unit B) of Section 28. The upper most perforation will be located 330 feet from North line and 1590 feet from the East line (Unit B) of Section 28 and the lower most perforation will be 330 feet from the South line and 1590 feet from the East line (Unit O) of Section 33. Since this acreage is governed by the Division's statewide rules which provides for wells to be located no closer than 330 feet to the outer boundary of the spacing unit, the completed interval for this well will be unorthodox because it is closer than 330 feet to the eastern, southeastern, and northeastern boundaries of the project area.

EOG will be the operator of three permitted wells in the E/2 E/2 of Sections 28 and 33: the Convoy 28 State Com No. 701H Well, the Convoy 28 State Com No. 702H Well, and the Convoy 28 State Com No. 703H Well. Ownership in the Wolfcamp is identical between the proposed spacing unit and the spacing unit in the E/2 E/2 of Sections 28 and 33. Approval of the unorthodox completed interval will allow EOG to use their preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

**Exhibit A** is a draft Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **Convoy 28 State Com No. 704H Well** encroaches on the spacing and proration units to the East, Northeast, and Southeast.

**Exhibit B** is a land plat for Sections 28 and 33 and the surrounding sections that shows the proposed **Convoy 28 State Com No. 704H Well** in relation to adjoining units and existing wells.

**Exhibit C** is a list of the parties affected by the encroachment to the Northeast and Southeast. As described above, EOG is the operator in the spacing proration unit comprised of the E/2 E/2 of Sections 28 and 33 and ownership is identical to the proposed spacing unit. Accordingly, there are no affected parties in the spacing units to the East of the proposed well. Each of the parties listed on Exhibit C have been provided notice of this application by certified mail. A copy of this application has been provided to the State Land Office.

**Exhibit D** is an affidavit from the landman verifying that ownership in the E/2 of Sections 28 and 33 is identical.

Your attention to this matter is appreciated.

Sincerely,

Jordan L. Kessler

Re: Convoy 28 State Com #704H – NSL Application

To whom it may concern:

I have reviewed the ownership as to the Wolfcamp Formation of the oil and gas leasehold in the W/2E/2 of Section 28 and W/2E/2 of Section 33, Township 24 South, Range 33 East, N.M.P.M., Lea County, New Mexico, for purposes of the APPLICATION FOR NONSTANDARD LOCATION. The E/2 of Sections 28 and 33 are covered by an operating agreement; accordingly, owners and percent ownership in the proposed spacing unit is identical to the adjacent spacing unit, comprised of the E/2E/2 of Section 33.
