**Re: Application of EOG Resources, Inc. for administrative approval of an unorthodox well location for its Savage 2 State Com #704H Well in the E/2 W/2 of Section 2, Township 25 South, Range 32 East, N.M.P.M., Lea County, New Mexico.**

Dear Ms. Sandoval:

EOG Resources, Inc. (OGRID No. 7377) seeks administrative approval of an unorthodox well location for its **Savage 2 State Com #704H Well** (API No. pending) to be completed within the WC-025 G-09 S253309P;UPR WOLFCAMP (98180) underlying the E/2 W/2 of Section 2, Township 25 South, Range 32 East, N.M.P.M., Lea County, New Mexico.

This well will be drilled from a surface location 310 feet from the north line and 2,272 feet from the east line (Lot 2). The *first take point* will be located 100 feet from the north line and 2,385 feet from the west line (Lot 3) of Section 2, and the *last take point* will be 100 feet from the south line and 2,385 feet from the west line (Unit N) of Section 2. Since this acreage is governed by the Division's statewide rules, the completed interval for this well will be unorthodox because it is closer than the standard offsets to the eastern boundary of the spacing unit. Approval of the unorthodox completed interval will allow EOG to use their preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

**Exhibit A** is a Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **Savage 2 State Com #704H Well** encroaches on the tracts to the east.

**Exhibit B** is a land plat for Section 2 and the surrounding spacing units that shows the proposed **Savage 2 State Com #704H Well** in relation to adjoining units and existing wells.

**Exhibit C** is a list of the parties affected by the encroachment to the east. Each of the parties listed on Exhibit C have been provided notice of this application by certified mail. A copy of this application has been provided to the New Mexico State Land Office.

**Exhibit D** is statement from a petroleum engineer providing justification for the needed exception.

Your attention to this matter is appreciated.

Sincerely,

Re: EOG Resources, Inc. NSL Application  
Savage 2 State Com #704H (Well)  
E/2W/2 Sec. 2, T25S-R32E  
Lea County, New Mexico

To Whom it may concern:

Considering the distance between wells in the development plan for the Wolfcamp formation as well as the location of the existing well in Section 2-T25S-R32E, EOG believes the non-standard location is necessary to develop the Wolfcamp resource in an economic fashion. Based on current Wolfcamp well in Section 2-T25S-R32E, placing the well at this location prevents completion energy distribution to be skewed into a region of lower pressure caused by offset depletion, negatively impacting well's production. Granting the exception will allow for more total production from the section and more efficient development of the asset therefore protecting correlative rights.

Sincerely

**EOG Resources, Inc.**
