Mr. Fisher:

OCD was notified by Mewbourne Oil Company that it is protesting this application. This party is identified as an affected person for the location being considered for the application. You are being notified that if Permian Oilfield Partners LLC wishes for this application to be considered, they must either go to hearing or may be reviewed administratively if the protest is withdrawn as a result of a negotiated resolution with this party. The application will be retained pending resolution of the protest. Please continue to provide OCD with information regarding the standing of this application. Please me call with any questions on this matter.

RE: Application of Permian Oilfield Partners, LLC for a Disposal Well Permit
Guzzler Federal SWD #1
1690' FNL, 1211' FEL, Unit Letter H
Section 9, Township 26S, Range 32E
Lea County, TX

Dear Mr. Goetze:

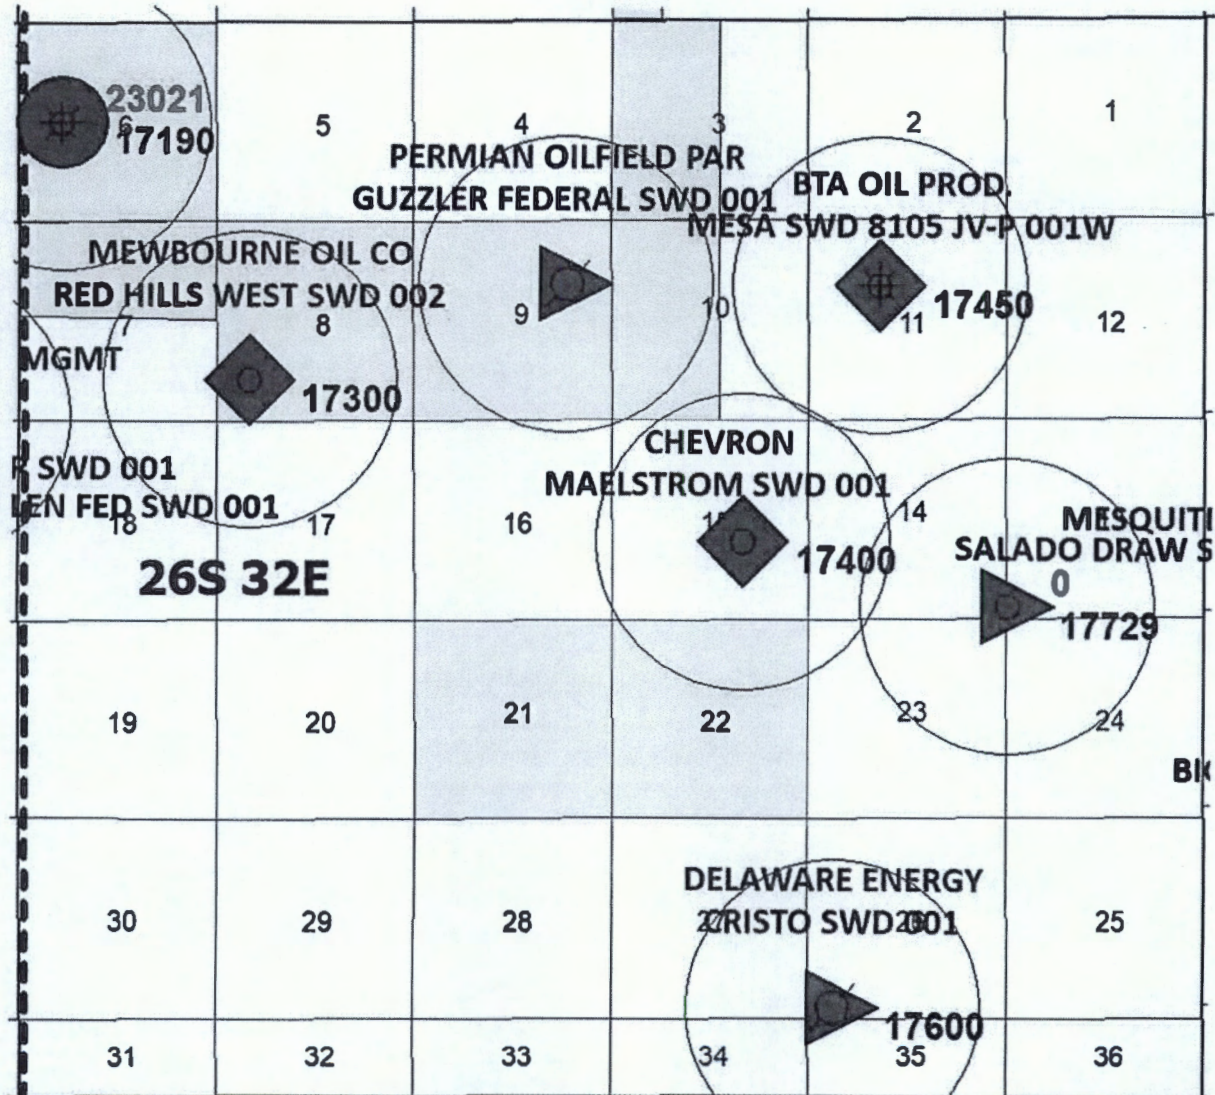

Mewbourne Oil Company hereby protests the above referenced application of Permian Oilfield Partners, LLC for a Devonian salt water disposal permit. Notice of this application was published (copy attached) in the Hobbs News-Sun on 3/12/19. My company is the operator of Section 9 and we plan to drill at least 8 horizontal wells in the E/2 of this section and the proposed location of the SWD will impact our development plan, as the proposed wellbore will penetrate all our horizontal targets.

Please contact me if you have any questions.

Very truly yours,

Tim Harrington
903-561-2900

Public Notice:

LEGAL NOTICE MARCH 12, 2019 Permian Oilfield Partners, LLC, PO Box 1220, Stephenville, TX 76401, phone (817)606-7630, attention Gary Fisher, has filed form C-108 (Application for Authorization for Injection) with the New Mexico Oil Conservation Division seeking approval to drill a commercial salt water disposal well in Lea County, New Mexico. The well name is the Guzzler Federal SWD #1, and is located 1690' FNL & 1211' FEL, Unit Letter H, Section 9, Township 26 South, Range 32 East, NMNM. The well will dispose of water produced from nearby oil and gas wells into the Devonian formation from a depth of 17,199-18,445. The maximum expected injection rate is 65,000 BWPD at a maximum surface injection pressure of 3,440 psi. Interested parties must file objections or requests for hearing with the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico, 87505 within 15 days. #33877
