Application for surface commingle, Lusk;Strawn North, Young; Grayburg South and Young, San Andres South, Lea County, NM (T18S, R32E, Section 33)

Dear Sirs,

Chevron U.S.A. Inc. respectfully requests administrative approval to surface commingle oil, gas and water production from the Lusk;Strawn, North; Young Grayburg, South and Young;Grayburg, South Oil Pools through Chevron's Keel Federal Central Tank Battery. Chevron requests the approval to minimize surface disturbance and future traffic by concentrating activities at one battery. The wells producing to this battery, include the Keel A Federal #3 Strawn and Keel A Federal #4 Young, Grayburg, South and Young, San Andres, South Completion and Keel A Federal #2 Young, Grayburg, South completion. These wells are located in Section 33, T 18S, R 32E in Lea County, New Mexico.

The working interest owners vary in the zones, detailed below. The well is located on federal leases NMNM 0556094 and NMNM24161 and the royalty rate is identical for all zones involved in this request. These wells were completed in the 1996 & 1998. The Keel A Federal #3 Strawn, Keel A Federal #4 Grayburg, and Keel A Federal #2 Grayburg will be tested continuously through turbine meters installed on heater treaters and the gas allocation meter. There are two oil tanks at the CTB that the wells utilize and total oil will be measured by having a qualified field personnel gauge.

Sincerely,

A handwritten signature in blue ink that reads "Cindy Herrera-Murillo".

APPLICATION FOR COMMINGLING AT A COMMON CENTRAL TANK BATTERY CHEVRON USA
INC KEEL A FEDERAL WELLS

APPLICATION FOR COMMINGLING and OFF LEASE MEASUREMENT AT A COMMON
CENTRAL TANK BATTERY

Proposal for commingling all oil, water, and gas for the Keel wells. Proposal to commingle the oil, water, and some entrained gas for the Keel A Federal wells in the Strawn and Grayburg.

Proposal for Keel Central Tank Battery

Chevron USA Inc. is requesting approval for the Commingling of oil and gas.

Well Names	Locations	API Numbers	Pool	Oil BOPD	Gas MCFPD
Keel A Fed #3	33-18S-32E	30-025-3340	Strawn (Oil)	0.2	1.2
Keel A Fed #4	33-18S-32E	30-025-33499	Grayburg (Oil)	2.2	1.0
Keel A Fed #2	33-18S-32E	30-025-33339	Grayburg (Oil)	9.3	2.0

Oil & Gas metering:

The production from the Keel A Federal #3 Strawn, Keel A Federal #4 Grayburg, and Keel A Federal #2 Grayburg will go into a common heater treater; there is another identical heater treater onsite in parallel for individual well tests. These wells will be routinely tested to quantify oil, and water via turbine meters installed on the heater treater and the gas allocation meter. There are two oil tanks at the centralized tank battery that the wells will utilize and total oil will be measured by having qualified field personnel gauge the tanks. The CTB is located in the NWSE of Section 33, Township 18S, Range 32E on Federal Lease NMNM 24161. Each wells share of the central tank battery's total production will be calculated based on the results of subtracting the continuous meter values from the total production. This ratio will be applied to the total oil production metered by tank gauging. This method will also be applied to the total gas production metered by the Targa Sales meter. The produced water will go to one common water tank on location.

These allocation meters will be calibrated on a regular basis per API, NMOCD and BLM specifications. The BLM and OCD will be notified of any future changes in the facilities.

Process and Flow Descriptions:

The flow of production is shown in detail on the enclosed process flow diagram and facility diagram maps which show the lease boundaries, well locations, flow line location, CTB, and gas sales meter. The commingling of this production is the most effective economical means of producing the reserves and will not result in reduced royalty or improper measurement of production. The proposed commingling will reduce footprint, reduce traffic, and lower overall emissions.

Chevron U.S.A. Inc. understands that the requested approval will not constitute the granting of any right-of-way or construction rights not granted by the lease instrument.

All royalty and overriding interest owners have been notified.
