Hello Jeanette,

Thanks; once the revised well test conditions of approval have been finalized, I will write a recommendation to the Director that an order be issued for this project.

Subject: [External] Surface Commingle for the Harrier Federal 2 N CTB

**** External email. Use caution. ****

Hello Ms. Barron,

I am reviewing the surface commingle application for the Harrier Federal 2 N Central Tank Battery

(PLC-701) operated by COG Operating, LLC (229137).

I am needing to confirm that notice was sent to both the BLM and SLO of this application. It looks like a part of this application is from the BLM application indicating they were noticed of the proposed commingling, but I am unsure if the SLO has been noticed.
