Hello Mike,

We only require a written request without regard to format to withdraw an application. This email will suffice. We look forward to working with you as well.

Dean – Thank you for contacting about the Surface Comingling application on the South Shoe Bra #1 & #2 wells that we acquired from Catena. We have looked over the situation and reached the conclusion that we do not want to commingle these two wells and would therefore like to withdraw the Catena application. What do we need to do to formally withdraw the application? Thank you again for contacting me on this matter & I look forward to working with you in the future.

Hello Mike,

I am forwarding the latest communication I had regarding the surface comingling application I referenced in our phone call today. As mentioned during our conversation, the only thing I have noted regarding this application is incomplete notice, but it has been a bit since I reviewed it.

Everything currently on file for this application can be found at

<http://ocdimage.emnrd.state.nm.us/imaging//AEOrderFileView.aspx?appNo=pDM2020951064>

Dean,

I have CC'd two contacts for the new owners of the wells that were recently sold on 9/1. I do not know if they were aware of the commingling application that was submitted currently. I will get everything to Anna-Marie that they would need to complete this commingling application and will keep my line of communication open to help any way I can.

Thank you!

Hello Caitlin,

Do you have any updates regarding this application? It seems like there may be another email chain regarding this application, but I am not seeing it at the moment.

Hello Caitlin,

Issued orders transfer with the wells. Current OCD policy is that applications may also transfer if the new operator wishes to pursue them.

Dean,

Can I transfer this PLC-689 to the new owners? We will be completing the sale 9/1.
