RE: Titus Oil & Gas Production, LLC
Request for Administrative Approval of Non-Standard Location

Chicken Noodle Fed Com 402H
W/2 of Section 2 and NW/4 of Section 11, T26S, R25E (E/2 W/2)¹
Eddy County, New Mexico
Purple Sage; Wolfcamp (Gas) [98220]
API# 30-015-PENDING

Dear Mr. Lowe,

Pursuant to Division Rules 19.15.16.15(C)(6) and 19.15.15.13(C)-(D) NMAC and the applicable rules governing the acreage and well location requirements for the Purple Sage-Wolfcamp Gas Pool (Pool Code 98220), Titus Oil & Gas Production, LLC ("Titus") requests administrative approval of a non-standard location for the above-referenced well, as described more fully below.

Standard setbacks for the first and last take points of a horizontal gas well are 330 feet from the outer boundary of the spacing unit. 19.15.16.15(C)(1) NMAC; see Order No. R-14262 at 7-8 (deferring to Division rules for setbacks of first and last take points). The above-referenced well, however, will have a first take point located 100 feet from the southern boundary of the spacing unit and a last take point located 100 feet from the northern boundary of the spacing unit. Titus is requesting approval to decrease the setbacks for the first and last take points of the above-referenced well as indicated below.

¹ The W/2 of Section 2 and the NW/4 of Section 11, T26S, R25E will be dedicated to the Chicken Noodle Fed Com 401H ("401H") and the Chicken Noodle Fed Com 402H ("402H"). By separate application, Titus is requesting approval of a similar non-standard location for the 401H, which will be located in the W/2 W/2.

Mr. Lowe

Page 2

The proposed surface and bottom hole locations and first and last take points are as follows:

1. SHL: 2437' FSL and 1662' FWL of Section 11, T26S-R25E
2. FTP: 2550' FNL and 2336' FWL of Section 11, T26S-R25E
3. LTP: 100' FEL and 2350' FWL of Section 2, T26S-R25E
4. BHL: 10' FNL and 2325' FWL of Section 2, T26S-R25E

It is Titus's responsibility as a prudent operator to maximize the recovery of oil and gas reserves left in the ground. Approval of the unorthodox completed interval will allow Titus to use its preferred well spacing plan for horizontal wells in this area and thereby maximize recovery and prevent waste.

Attached is the draft C-102 form and plat to assist the Division in its review of Titus's requests. Titus has sent notice to all affected persons on the enclosed spreadsheet by certified mail, return receipt requested, with a copy of this request, the plat, and the draft C-102. The notice also informs the affected persons that, if they object to the aforementioned requests, they must file the objection in writing with the Division within 20 days from the date the Division receives this administrative approval request. I attach a sample of the notice letter and a spreadsheet with the types of interests and names of the affected parties, the location of each parties' interest, the date the letter was sent, and the mail tracking number for the mailings that went out today.

Please let me know if you have any questions or concerns. Thank you for your assistance in this matter.

Very truly yours,

Sharon T. Shaheen
