Re: Application of DJR Operating, LLC, for administrative approval of an unorthodox well location for its Venado Canyon Unit #302H well in Sections 13, 14, and 24, Township 22 North, Range 6 West, N.M.P.M., Sandoval County, New Mexico.

Dear Ms. Sandoval:

DJR Operating, LLC (“DJR Operating”) (OGRID No. 371838) seeks administrative approval of an unorthodox well location for its **Venado Canyon Unit #302H well** (API No. pending) to be completed within the Lybrook Gallup pool (Pool Code 42289) underlying the SE/4 NE/4 and the NE/4 SE/4 of Section 14, SE/4 NW/4, SW/4, and the SW/4 SE/4 of Section 13, and the NE/4 of Section 24, Township 22 North, Range 6 West, N.M.P.M., Sandoval County, New Mexico. The horizontal well is proposed to be drilled as follows:

- Surface hole location: 2,209’ FNL, and 745’ FEL (Unit H) of Section 14
- Bottom hole location: 1,941’ FNL, and 365’ FEL (Unit H) of Section 24
- First take point: 2,105’ FNL, and 406’ FEL (Unit H) of Section 14
- Last take point: 1,941’ FNL, and 365’ FEL (Unit H) of Section 24

The **Venado Canyon Unit #302H well** is a unit well within the Venado Canyon Exploratory Unit. **Exhibit A** is a map of the Venado Canyon Exploratory Unit, which was approved by Division Order Nos. R-14067 and R-14067-A, for a total of 5,280 acres of federal and fee lands in Sandoval County and included 680 acres of unleased federal land.

A portion of the completed interval for this unit well will be located less than 330 feet from the adjoining unleased federal tract in the NE/4 NW/4 of Section 24. **Exhibit B** is a land plat for Sections 13, 14, and 24, that shows the proposed **Venado Canyon Unit #302H well** in relation to the adjoining unleased federal tract to the southwest in the NW/4 of Section 24.

Exhibit C is a Form C-102 for the **Venado Canyon Unit #302H well** reflecting the completed interval of the well in relation to the adjoining unleased federal tract to the southwest.

The affected tract is unleased federal acreage within the Venado Canyon Unit. The BLM has committed this tract to the Unit and the Unit Agreement provides that “unleased” Federal tracts are “committed” tracts to be allocated production and receive royalty. Under the Unit Agreement, the costs and production attributable to the working interest for this unleased tract is distributed to the other working interest owners in the Unit until such time as this federal tract is subject to a lease. Under this unique circumstance, it is unclear whether the Division considers this tract a “partially committed tract” for purposes of applying the setbacks under NMAC 19.15.16.C(7). Accordingly, DJR has applied for approval of an unorthodox location out of an abundance of caution and **Exhibit D** provides proof that a copy of this application with all attachments has been sent by certified mail to the BLM advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application.

Your attention to this matter is appreciated.

Sincerely,

Kaitlyn A. Luck
