RE: Administrative Order SWD-2381; Extension of Deadline to Inject
Well: Linley State SWD #001 (API 30-005-64358)
Located: Unit M, Sec 32, T15S, R29E, NMPM, Chavez County, New Mexico
Order Date: July 16, 2020
Injection formations: San Andres-Glorieta formations; 3750 feet to 4060 feet

Dear Mr. Wood:

Reference is made to your March 21, 2021 request on behalf of BAM Permian Operating, LLC (the "operator") to extend the deadline to commence injection stipulated in order SWD-2381 for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection under said order is July 16, 2021.

It is the OCD's understanding from your correspondence that since the date of issuance of this permit, no additional wells that penetrate the approved injection interval were drilled in the Area of Review (AOR) and no new affected parties have been identified in the AOR. Therefore, the extension request could be reviewed administratively for approval.

The OCD finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is hereby extended until **July 16, 2022**.

All requirements of the above referenced administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the extended administrative order and the operator shall be required to submit a new application to obtain injection authority for the referenced well.

ADRIENNE SANDOVAL
