Notice of Intent

Type of Submission: Notice of Intent

Type of Action Commingling (Surface)

Date Sundry Submitted: 04/20/2021

Time Sundry Submitted: 10:41

Date proposed operation will begin: 04/19/2021

**Procedure Description:** Please add wells Whirling Wind 14 Fed Com 701H and 1H, 30-025-42886 and 30-025-41212, to this application. Due to the migration issue I will submit an additional sundry to batch those wells together. EOG Resources, Inc. ("EOG") respectfully requests approval to surface pool/lease commingle oil & gas from all existing and future wells in SE4 of Section 2 and E2 of Section 11 in Township 26 South, Range 33 East within the Wolfcamp and Bone Spring pools listed below, for Leases NM NM 122621 and VB-1507-1 and for CA NM NM 143164, NM NM 132968, NM NM 136624 and NM NM 136625. This Commingle and Allocation Approval (CAA) will not negatively affect the royalty of the federal government. Any allocation meters (non-FMPs) will meet API measurement standard 14.1. All leases, unit PAs, or CAs in the proposed CAA are capable of production in paying quantities, defined as 1 bbl/day of oil or 10 MCF/day of gas. Gas analysis is not required because we are applying under 3173.14(a)(1)iii (Federal unit PA or CA where each unit PA or CA proposed for commingling has the same proportion of Federal interest, and which interest is subject to the same fixed royalty rate and revenue distribution). The location of the FMP is on the lease. There is no new surface disturbance included as part of the proposed CAA. These spacing units are initially dedicated to the following wells:

Surface Disturbance

Is any additional surface disturbance proposed?: No
