**Date:** Monday, October 18, 2021 5:19:00 PM

---

Hello Sandra,

It looks like I missed removing the CC 16-1 battery out of PLC-750-B. However, all the wells are already listed within Oxy's application for PLC-750 with the layout as you have detailed below. The Division will be issuing an amendment to PLC-750-B to correct our mistake. It looks like the trains are already separated out correctly and the stipulations of the order should not cause an hinderance to Oxy's operations in the meantime. As such, I will take the opportunity to update the style of exhibits being used for this order and you can expect an order updating it in the next few weeks.

This will have no bearing on the schedule to review the application to amend PLC-580-C which I should be able to conduct shortly per our phone conversation.

**Subject:** [EXTERNAL] FW: Whomping Willow Battery Amendment to PLC 580B

CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

Hi Dean,

This oil commingle is part of a daisy chain for facility work for a new development. Would it be possible to get it reviewed sometime this week or early next week?

Cedar Canyon 16-1 wells are part of PLC 580B, but they previously had a separate sales point from the rest of the Whomping Willow wells. This amendment will send the CC 16-1 wells to the Whomping Willow oil sales point, and remove the previous separate CC 16-1 oil sales point.

The gas commingle is part of PLC 750A. In the original submittal for the gas commingle, Whomping Willow and Cedar Canyon 16-1 gas were combined into one sales point, so that PLC does not need to be updated.

Thanks!

**Subject:** Whomping Willow Battery Amendment to PLC 580B

Hello Dean,

I have submitted a commingle permit application to amend PLC 580B (oil production at Whomping Willow CTB). Action ID is 41554.

Attached are:

- CONFIDENTIAL economic justification
- Confirmation of application receipt from SLO
- Spreadsheet with wells, API, pool and pool code

Thank you,
