Hello Mr. McClure,
Harroun 15 #7 and 15 #5 have both been plugged and abandoned. Please remove them from both PLC 580D and PLC 750B.

Thank you,

Subject: [EXTERNAL] surface commingling application PLC-580-D

WARNING - This message is from an EXTERNAL SENDER - be CAUTIOUS, particularly with links and attachments.

Ms. Musallam,

I am reviewing surface commingling application PLC-580-D which involves the Whomping Willow Battery (Train 1) operated by Oxy USA, Inc. (16696).

Please confirm whether the following wells are being plugged and should be removed from this application:

30-015-29987	Harroun 15 #7	C	15-24S-29E	11540
30-015-29310	Harroun 15 #5	B	15-24S-29E	11540

Further, if so please confirm that they should also be removed from PLC-750-B.
