Advanced Wireless Communications, LLC plans to bring all wells above into production but Advanced Wireless Communications, LLC plans to produce these wells for a minimum of 1 year if viable to do so.

The exact timeline and order in which these wells will be produced may change if and when the Ora #8 that have downhole problems, will be repaired and then brought back into production.

Summary Previous ACO's

NMOCD - ACOI-371

7 Inactive wells brought into production per the plan, all wells still producing and in Active
