Here at NMOCDD, Compliance group used to have access to researching the data through the NMPRC website. Since the change occurred and is now through NMDOT, we are no longer able to access the info.

Justin Garcia used to send us a snapshot of the verification for the above via email. Will there ever be a time that our agency will or can obtain access to your website or are we to keep sending emails to you for the information?

Below is an example of what we typically need to proceed with their water hauler permitting in the state.

The data in the Safety Measurement System (SMS) is performance data used by the Agency and Enforcement Community. A  symbol, based on that data, indicates that FMCSA may prioritize a motor carrier for further monitoring.

The  symbol is not intended to imply any federal safety rating of the carrier pursuant to 49 USC 31144. Readers should not draw conclusions about a carrier's overall safety condition simply based on the data displayed in this system. Unless a motor carrier in the SMS has received an UNSATISFACTORY safety rating pursuant to 49 CFR Part 385, or has otherwise been ordered to discontinue operations by the FMCSA, it is authorized to operate on the nation's roadways.

Motor carrier safety ratings are available at <http://safer.fmcsa.dot.gov> and motor carrier licensing and insurance status are available at <http://li-public.fmcsa.dot.gov/>.
