Basin Fruitland Coal (71629)/ Aztec Pictured Cliffs (71280)

Dear Sirs:

McKay Oil & Gas, LLC requests administrative approval for a non-standard gas well location in the Basin Fruitland Coal and Aztec Pictured Cliffs pools for its McKay No. 1R well.

The McKay No. 1R, a W/2 dedication, was staked in an unorthodox location due to the proximity of the San Juan River and associated wetlands as shown on the enclosed topographic map. In order to place the well in an accessible location, the well was staked 381' FSL, encroaching 279' south of the standard drilling window; and 2255' FWL, encroaching 275' east of the standard drilling window.

Please find enclosed a C102 plat showing the location of the well, a topographic map, and a map showing offset owners affected by the unorthodox location. Copies of green cards showing notification are also attached.

If you have any questions or need additional information, please give me a call at (505) 326-4125. Thank you for your consideration in this matter.

Sincerely,

A handwritten signature in cursive script, appearing to read "Dana L. Delventhal".
