Re: Application for Gathering System & Central Delivery Gas Sales
Dugan Production's
Seven of Diamonds Gathering System
San Juan County, New Mexico

Dear Ms. Bailey & Mr. Roybal,

57 We are writing to request your administrative approvals to install and operate the captioned gathering system and central delivery gas sales meter for three wells, all operated by Dugan Production Corp. and completed in either the Flora Vista Fruitland Sand gas pool (76600) or the Basin Fruitland Coal gas pool (71629). All three wells are located in the E/2 of Section 2, T-30N, R-13W and the spacing units include five state leases, three held by Dugan Production (E-453-18, E-3555-7 and OG-4070-1) and two held by Burlington Resources Oil & Gas (E-4550-6 and OG-959-6). The interest ownership is identical for two of the wells (Moncrief Com 100 & 101) but is different for the Seven of Diamonds No. 2. The CDP gas sales meter is on lease for one well (Seven of Diamonds No. 2), but is off lease for two wells (Moncrief Com 100 & 101).

NMOCD Form 107-B is attached in support of this application. **Attachment No. 1** presents a facility diagram and well information for the three wells that will be connected to the Seven of Diamonds CDP. **Attachment No. 2** presents a map showing the wells along with the leasehold interest in the E/2 of Section 2, T-30N, R-13W. This map was reproduced from the Farmington, North Quadrangle USGS topographic map.

We do not anticipate any commingling of oil or condensate since there is no condensate or oil production from the Fruitland Sand or Fruitland Coal completions.

Attachment No. 3 presents a summary of the interest owners in the wells to be connected to the Seven of Diamonds CDP. All interest owners in these wells are receiving a complete copy of this application. **Attachment No. 5** includes a copy of the notice letter sent to the interest owners. All letters were sent by certified, return receipt mail and upon receiving the receipts, copies will be forward to the NMOCD. Also included in Attachment No. 5 is a copy of our advertisement placed in the legal ads of the Farmington Daily Times on 12/4/11. This ad was placed anticipating that at least one of the 23 interest owners (9 WI and 14 ORRI) will have an address that is not current.

Attachment No. 4 presents the proposed allocation procedures. Each well will be equipped with a conventional continuous recording dry flow gas allocation meter (or some form of approved alternative measurement) operated and maintained by Dugan Production. Prior to converting any gas measurement from a conventional gas meter to an alternative measurement method, we will seek formal approvals.

The charts from each allocation meter will be integrated by a commercial integration service and the volumes recorded will be utilized to determine factors for allocating CDP volumes, BTU's and revenues to the individual wells. The Fruitland Coal wells will be equipped with rod pump equipment and water produced up the tubing and will be moved to the Moncrief No. 100 location by a pipeline gathering system installed and parallel to the pipeline for gas. All water production will be delivered to a conventional separator and any gas recovered from the water at this separator will be metered using a conventional dry flow meter and then delivered to the CDP for sale. Gas recovered at the separator will be allocated between the wells delivering water based upon volumes of water delivered. To date, very little water has been recovered from the Fruitland Sand completion in the Seven of Diamonds No. 2. All water recovered will be stored on location at the Moncrief No. 100 and disposal will be by trucking to one of Dugan Production's water disposal wells or to a commercial water disposal facility depending upon available capacity at Dugan's disposal facilities.

Should you need additional information or have questions regarding any of this information, please let me know.

Sincerely,

John D. Roe
Engineering Manager

APPLICATION FOR SURFACE COMMINGLING (DIVERSE OWNERSHIP)

OPERATOR NAME: Dugan Production Corp.

OPERATOR ADDRESS: P O Box 420, Farmington, NM 84799-0420

APPLICATION TYPE:

☒ Pool Commingling ☐ Lease Commingling ☐ Pool and Lease Commingling ☐ Off-Lease Storage and Measurement (Only if not Surface Commingled)

LEASE TYPE: ☐ Fee ☒ State ☐ Federal

Is this an Amendment to existing Order? ☐ Yes ☒ No If "Yes", please include the appropriate Order No. _____

Have the Bureau of Land Management (BLM) and State Land office (SLO) been notified in writing of the proposed commingling

☒ Yes ☐ No

(A) POOL COMMINGLING

Please attach sheets with the following information

(1) Pool Names and Codes	Gravities / BTU of Non-Commingled Production	Calculated Gravities / BTU of Commingled Production	MMBTU/Day	Calculated Value of Commingled Production	Volumes
Flora Vista Fruitland Sand (76600)	1185	1048	59.25	Gas will be allocated and sold on BTU basis	50 mcf/d
Basin Fruitland Coal (71629)	1025		307.50		300 mcf/d

(2) Are any wells producing at top allowances? ☐ Yes ☒ No

(3) Has all interest owners been notified by certified mail of the proposed commingling? ☒ Yes ☐ No.

(4) Measurement type: ☒ Metering ☐ Other (Specify)

(5) Will commingling decrease the value of production? ☐ Yes ☒ No If "yes", describe why commingling should be approved

(B) LEASE COMMINGLING

Please attach sheets with the following information

(1) Pool Name and Code.

(2) Is all production from same source of supply? ☐ Yes ☐ No

(3) Has all interest owners been notified by certified mail of the proposed commingling? ☐ Yes ☐ No

(4) Measurement type: ☐ Metering ☐ Other (Specify)

(C) POOL and LEASE COMMINGLING

Please attach sheets with the following information

(1) Complete Sections A and E.

(D) OFF-LEASE STORAGE and MEASUREMENT

Please attached sheets with the following information

(1) Is all production from same source of supply? ☐ Yes ☐ No

(2) Include proof of notice to all interest owners.

(E) ADDITIONAL INFORMATION (for all application types)

Please attach sheets with the following information

(1) A schematic diagram of facility, including legal location. - Attachment No. 1

(2) A plat with lease boundaries showing all well and facility locations. Include lease numbers if Federal or State lands are involved.-Attachment No. 2

(3) Lease Names, Lease and Well Numbers, and API Numbers. - Attachment No. 1

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

ATTACHMENT NO. 4
Proposed Allocation Procedures
Dugan Production Corp.'s
Seven of Diamonds Gathering System
CDP -- Enterprise Meter No. 94843 Located @ NESE 2, T-30N, R13W
(old sales meter for Seven of Diamonds No. 2)
San Juan County, New Mexico

Base Data:

U = Water Volume (BWPD) from Periodic Well Test x days operated during allocation period.

V = Water Volume (bbl) at Central Battery during allocation period.

W = Gas Volume (MCF) from allocation meters at individual wells and central battery separator during allocation period.

X = Gas Volume (MCF) from CDP Sales Meter during allocation period.

Y = BTU's from CDP Sales Meter during allocation period.

Allocation Period is typically a calendar month and will be the same for all wells.

1. Individual Well Gas Production = A + B + C + D + E + F.

A = Allocated Sales Volume, MCF = $(W / \text{SUM } W) \times X$

B = On lease fuel usage, MCF. Determined from equipment specification and operating conditions.

C = Purged and/or vented gas from well and/or lease equipment, MCF. Calculated using equipment specifications and pressures.

D = Allocated fuel from gathering system equipment, MCF. The total fuel required to operate gathering system equipment will be allocated to the individual wells benefiting from the equipment using allocation factors determined by $W / \text{SUM } W$ for the wells involved.

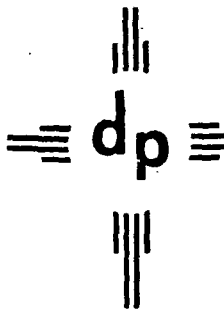

E = Allocated volume of gas lost and/or vented from the gathering system and/or gathering system equipment, MCF. The total volume will be determined using industry accepted procedures for the conditions existing at the time of the loss. All volumes corresponding to liquid condensation within the gathering system will also be determined. The total volume lost and/or vented will be allocated to the individual wells affected using factors determined by $W / \text{SUM } W$.

F = Allocated gas sales volume (MCF) associated with water production = (A) in mcf for the central battery separator multiplied by a factor of $(U / \text{SUM } U)$ for wells delivering gas and water to the central battery separator.

2. Allocated Individual Well BTU's = $((W \times \text{Individual well BTU}) / \text{Sum } (W \times \text{individual well BTU})) \times Y$.

Individual well gas heating values to be determined in accordance with regulations (currently BLM's Onshore Order No. 5).

3. Individual Well Water Production = Allocated production volume, bbl = $(U / \text{Sum } U) \times V$.

Interest Owners
Wells Proposed for
Dugan Production's
Seven of Diamonds Gathering System
(Address List Attached)

Re: Application for
Dugan Production's Seven of Diamonds Gathering System and
Central Delivery Gas Sales
San Juan County,

Dear Interest Owner,

Attached for your information and review is a complete copy of Dugan's application to the New Mexico Oil Conservation Division and the New Mexico State Land Office requesting their approvals to install and operate a gathering system and central delivery gas sales meter (CDP) for three wells; Dugan Production's Seven of Diamonds No. 2 plus Moncrief Com No. 100 and No. 101. According to our records, each of you has an interest in one or more of the wells that are proposed to be included. The wells in which you have an interest are listed on the attached address list and also on Attachment No. 3 to our application which also includes your interest ownership. Dugan Production will install, operate and maintain the gathering system and will pay all costs associated with this proposal. You will have no costs associated with this proposal other than a monthly charge based upon volumes produced for operation of the gathering system and water disposal. These fees will be based upon our actual installation and anticipated operating costs. These fees on our other gathering systems range from \$0.27 to \$0.40/mmbtu for gathering, \$0.09 to \$0.15/mmbtu for compression and \$0.70/bbl for water disposal.

This matter does not require any action on your part. NMOCD regulations require that all interest owners receive notice of our application. Should you have any questions, need additional information, or have any concern as to our application, please let me know. Should you have an objection to our application, please let me know and you should contact the New Mexico Oil Conservation Division directly within 20 days from the date the NMOCD receives our application which will be approximately 12/22/11. The mailing address for the NMOCD is 1220 South St. Francis Drive in Santa Fe, New Mexico 87505. We would appreciate receiving a copy of your objection, should you have one.

Sincerely,

John D. Roe

Affidavit
No. 5
Pg. 3 of 3

Dugan Production Corp. is applying to the New Mexico Oil & Conservation Division (NMOCD) and the New Mexico State Land Office (NMSLO) for regulatory approvals to convert the existing gas sales meter for the Seven of Diamonds Well No. 2 (Enterprise Meter No. 94843) to a central delivery (CDP) gas sales meter for three wells: the Seven of Diamonds No. 2 plus the Moncrief Corn Wells No. 100 & 101. All three wells are operated by Dugan Production Corp. and are located in the E/2 of Section 2, T. 30N., R. 13W. of San Juan County. This will require the surface commingling of produced natural gas and water plus the off-lease measurement and sale of natural gas. There will not be any commingling of oil or condensate. The Seven of Diamonds No. 2 is completed in the Flora Vista Fruitland Sand Gas Pool and currently averages 50 mcf/d. The Moncrief Corn No. 100 was completed in the Basin Fruitland Coal gas pool on 10/12/11 testing 150 mcf/d + 140 bwpd. The Moncrief Corn No. 101 was completed in the Basin Fruitland Coal gas pool on 10/13/11 testing 150 mcf/d + 140 bwpd. The following State Leases are included within the spacing units: E-453-18, E-355-7 and OG-4070 held by Dugan Production plus State Leases E-4550-6 and OG-959-6 held by ConocoPhillips. There are no Federal or Indian leases. Any person holding an interest in any of these leases or wells may contact Dugan Production for additional information. Inquiries should be directed to John Roe at 505-325-1821 or by mail at PO Box 420, Farmington, NM 87499.

Any objection or request for a formal hearing should be filed in writing with the NMOCD's Santa Fe office within 20 days from the date of this publication. In the absence of objection, Dugan Production is requesting that the NMOCD approve its application administratively. The NMOCD's address is 1220 South St. Francis Drive, Santa Fe, NM 87505.

RECEIVED OGD
2012 JAN 13 P 12:54

January 12, 2012

Ms. Jamie Bailey, Director
New Mexico Oil Conservation Division
1220 South St. Francis Drive
Santa Fe, NM 87505

Re: Dugan Production's Application dated 12-20-11
Proposed Seven of Diamonds CDP & Gathering System
San Juan County, New Mexico

Dear Ms. Bailey,

Attached for your consideration of the captioned application are copies of the certified mail return receipts for our notice given to interest owners in the wells proposed to be included in Dugan's Seven of Diamonds CDP and Gathering System. We have received receipts for seven of the eight working interest owners and upon checking with the US Postal Service (USPS) tracking system, the 8th working interest owner (Leroy 2000, LLC) did receive notice on 1-11-12. In addition, we have received receipts for 12 of the 14 overriding royalty interest owners. Of the two ORRI owners with no receipts, one (John W. Barringer) did receive our notice on 12-29-11 according to the USPS tracking system, plus one ORRI (Katherine Kirby) had a questionable address, but we have since located a correct address and have contacted representatives for Ms. Kirby's interest. Copies of the USPS tracking system information along with our e-mail contact from Ms. Kirby's representative are attached for your review and file.

To date, we have not had any comment or objection from any of the interest owners.

Should you have questions or need additional information, please let me know.

Sincerely,

John D. Roe

John D. Roe
Engineering Manager

ORRI OWAPL

Date: Mon, 2 Jan 2012 17:48:44 -0800
Subject: Katherine A. Kirby
Greetings..

I am in receipt of a letter from you dated December 27, 2011 requesting the whereabouts of Katherine A.

Kirby with regard to 3 wells operated by Dugan in San Juan County, New Mexico.

Katherine/Kate is my sister, now deceased. Sigh. She died in October of '08. My twin brother, Christopher and younger brother, Duncan are also referenced in your letter.

Please let me know next steps. I would be happy to send you a copy of her death certificate. I am her Executrix (by holographic will).

Thanks and Happy New Year.

Connie
