Re: Request for Administrative Approval
Non Standard Gas Well Location &
Non Standard Proration Unit
NM 'BZ' State NCT-10, Well # 6
480' FSL & 1650' FWL
Unit N, Sec. 2, T25S, R37E,
Lea County, New Mexico

Chevron U.S.A. Inc. respectfully request administrative approval for a Non-Standard location, and a Non-Standard Proration Unit for the NM 'BZ' State NCT-10, Well # 6, to be recompleted as a gas well, in the Justis Glorieta (Pro Gas – 79360). The subject well was originally completed in the Blinbry-Tubb-Drinkard in 1996 as an oil well. After 4 years, the Blinbry perfs were squeezed and an open-hole horizontal section was drilled in the Drinkard formation. The well is currently producing from the DKR horizontal section and the original Tubb-Drinkard formations, and is currently producing 1 to 2 BOPD and negligible gas.

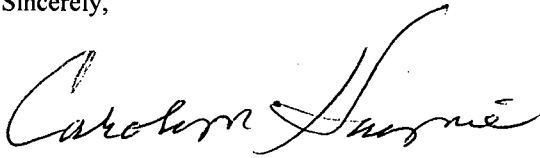

The Chevron U.S.A. Inc. lease NM BZ State NCT-10 encompasses 160 acres (the SW4 of Sec. 2), and therefore a Non-Standard Proration Unit is also requested for approval for the NM BZ State NCT-10, Well # 6.

The recompletion to the Glorieta will be the only gas well location within the section. If approved, it would allow the NM 'BZ' State NCT-10, Well # 6 to be returned to economic production.

A copy of this application was mailed via certified mail to all affected offset operators, and the list includes all the offset operators within 160 acres in all directions of the NM 'BZ' State NCT-10, Well # 6. The 160 acres was chosen because the workover for this well will include setting the CIBP with cement on top, above all open formations lower than the Glorieta.

For your convenience, I have enclosed an envelope with my return address so the decision for this application can be sent directly to me for distribution. If you require additional information, please contact me at 432-687-7261, or by email at: chay@chevron.com.

Sincerely,

A handwritten signature in cursive script, reading "Carolyn Haynie". The signature is fluid and elegant, with a large initial 'C' and a long, sweeping underline.

ADMINISTRATIVE APPLICATION CHECKLIST

THIS CHECKLIST IS MANDATORY FOR ALL ADMINISTRATIVE APPLICATIONS FOR EXCEPTIONS TO DIVISION RULES AND REGULATIONS WHICH REQUIRE PROCESSING AT THE DIVISION LEVEL IN SANTA FE

Application Acronyms:

[NSL-Non-Standard Location] [NSP-Non-Standard Proration Unit] [SD-Simultaneous Dedication]
[DHC-Downhole Commingling] [CTB-Lease Commingling] [PLC-Pool/Lease Commingling]
[PC-Pool Commingling] [OLS - Off-Lease Storage] [OLM-Off-Lease Measurement]
[WFX-Waterflood Expansion] [PMX-Pressure Maintenance Expansion]
[SWD-Salt Water Disposal] [IPI-Injection Pressure Increase]
[EOR-Qualified Enhanced Oil Recovery Certification] [PPR-Positive Production Response]

[1] TYPE OF APPLICATION - Check Those Which Apply for [A]

- [A] Location - Spacing Unit - Simultaneous Dedication
☒ NSL ☐ NSP ☐ SD

Check One Only for [B] or [C]

- [B] Commingling - Storage - Measurement
☐ DHC ☐ CTB ☐ PLC ☐ PC ☐ OLS ☐ OLM

- [C] Injection - Disposal - Pressure Increase - Enhanced Oil Recovery
☐ WFX ☐ PMX ☐ SWD ☐ IPI ☐ EOR ☐ PPR

- [D] Other: Specify _____

[2] NOTIFICATION REQUIRED TO: - Check Those Which Apply, or Does Not Apply

- [A] ☐ Working, Royalty or Overriding Royalty Interest Owners
 [B] ☒ Offset Operators, Leaseholders or Surface Owner
 [C] ☐ Application is One Which Requires Published Legal Notice
 [D] ☐ Notification and/or Concurrent Approval by BLM or SLO
U.S. Bureau of Land Management - Commissioner of Public Lands, State Land Office
 [E] ☐ For all of the above, Proof of Notification or Publication is Attached, and/or,
 [F] ☐ Waivers are Attached

[3] SUBMIT ACCURATE AND COMPLETE INFORMATION REQUIRED TO PROCESS THE TYPE OF APPLICATION INDICATED ABOVE.

[4] CERTIFICATION: I hereby certify that the information submitted with this application for administrative approval is **accurate** and **complete** to the best of my knowledge. I also understand that **no action** will be taken on this application until the required information and notifications are submitted to the Division.

Note: Statement must be completed by an individual with managerial and/or supervisory capacity.

Re: Request for Administrative Approval
Unorthodox Gas Well Location
NM 'BZ' State NCT-10, Well # 6
480' FSL & 1650' FWL
Unit N, Sec. 2, T25S, R37E,
Lea County, New Mexico

Chevron U.S.A. Inc. respectfully request administrative approval for a Non-Standard location, (unorthodox well) for the NM 'BZ' State NCT-10, Well # 6 to be recompleted as a gas well, in the Justis Glorieta (Pro Gas – 79360). The subject well was originally completed in the Blinebry-Tubb-Drinkard in 1996 as an oil well. After 4 years, the Blinebry perfs were squeezed and an open-hole horizontal section was drilled in the Drinkard formation. The well is currently producing from the DKR horizontal section and the original Tubb-Drinkard formations, and is currently producing 1 to 2 BOPD and negligible gas.

The recompletion to the Glorieta will be the only gas well location within the section. If approved, it would allow the NM 'BZ' State NCT-10, Well # 6 to be returned to economic production.

A copy of this application was mailed via certified mail to all affected offset operators, and the list includes all the offset operators within 160 acres in all directions of the NM 'BZ' State NCT-10, Well # 6. The 160 acres was chosen because the workover for this well will include setting the CIBP with cement on top, above all open formations lower than the Glorieta.

For your convenience, I have enclosed an envelope with my return address so the decision for this application can be sent directly to me for distribution. If you require additional information, please contact me at 432-687-7261, or by email at: chay@chevron.com.

Sincerely,

A handwritten signature in cursive script, appearing to read "Carolyn Haynie".

To: 'Haynie, Carolyn (CHaynie) [Kelly Services]'
Subject: NM BZ State NCT-10 #6; NSL Application

Dear Ms. Haynie

This application is captioned as a Request for Administrative Approval, Unorthodox Gas Well Location, and your letter states that you are requesting approval "for a Non-Standard location.

It appears, however, that you are proposing to dedicate a 40-acre unit to the proposed re-completion in the Justis Glorieta Gas Pool, a pool which, per Order R-1670, is apparently spaced on 320 acres. Although you have sent notice to everyone for whom notice of such a request should be sent, in view of the absence of any reference to the requested non-standard unit in either your letter to OCD or your cover letter to the notice parties, I cannot conclude that the offsetting parties have been given fair notice of the request for a non-standard 40-acre gas unit. If that is what you want, I believe an application specifically requesting a non-standard gas unit should be filed, and notice thereof sent to all owners in the S/2 and NE/4 of Section 2.

Additionally, the Division would require a basis for granting such a non-standard unit, and no evidence of reasons why this should be done was included with your application.

Sincerely

David K. Brooks

Subject: RE: NM BZ State NCT-10 #6; NSL Application

Dear Ms. Haynie

1. NSL and "unorthodox location: *are* the same thing. NSL applications are governed by Rule 19.15.15.13 NMAC, and the requirement for notification to offsetting operators and owners for NSL applications is governed by Rule 19.15.4.12.A(2). Your NSL application is correctly prepared and filed. The well location is non-standard because it will be a gas well, and a gas well is required to be at least 660 feet from unit boundaries. This location is only 490 feet from the southern boundary of Section 2. Accordingly notice was required to the operator or owners of the N/2 and W/2 of Section 11. This is because 19.15.4.12.A(2)(c) says you only have to notify owners of spacing units towards which the proposed unorthodox well encroaches.
2. But you appear to be wanting to assign a 40-acre unit to this well. The appropriate spacing unit for the Justis Gas Pool, so far as I can determine, should be 320 acres. If you want to designate a 40-acre unit, you need to apply for a Non-Standard Proration Unit (NSP). This is a different category of administrative application than NSL. It is governed by Rule 19.15.15.11.B NMAC, and the notification requirements are set forth in 19.15.4.12.A(3) NMAC. That provision would require that you notice all owners "of interest in the minerals estate" in the W/2 and S/2 of Section 2. The phrase "of the mineral estate" presumably requires notice to royalty and ORRI owners, as well as working interest owners.
3. The further concern is to alert the persons noticed that you are requesting not only a non-standard location (NSL) but also a non-standard proration unit (NSP). It seemed to me that this was not made clear in your paperwork, and accordingly, if you are applying for a 40-acre unit, as seems to be the case, you will need to re-notice those owners to whom notice of the NSP application is required.

Please let me know if I can be of further assistance.

Sincerely

David K. Brooks

Subject: RE: NM BZ State NCT-10 #6; NSL Application

OK David, and Thanks!

This was my first (solo)NSL application and I apparently need some coaching. I followed a copy of an approval, as an example, in which both terms were included. I thought they were one and the same. (NSL & Unorthodox well location). Can you tell me where to look for the difference between the two? I really want to get it right and understand the difference.

Also, as an example for the 'evidence of interest', do you mean maybe something like, because of increase of efficiency and/or less work on the battery, thus providing safety and savings to Chevron? (This is an example.)

Sorry for any confusion and waste of time on your part. I'll resend and I'll get it right. ☺

Is it ok if I send it to your attention since you have already reviewed it? This will delay the recompletion of the project and I'd like to get it approved as soon as possible.

And,

Merry Christmas

OK David, I have talked to the engineer and we are resubmitting the project. The engineer wants to do both the NSL and the NS Proration Unit so we have changed the letter to reflect that and we are only sending this to those west and south of section 2.

Thank you so very much for your help.
