Jami Bailey Division Director Oil Conservation Division

## Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit

Only Water Quality Control Commission- regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date or November 15, 2012, whichever is later, All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil Gas, and Geothermal regulations.

Proper completion and timely submission of this questionnaire is requested for all facilities with discharge permit expiration dates before November 15, 2012. Please complete and submit a separate questionnaire for each facility before July 15, 2011.

Name of the owner or operator of the facility

Williams Four Corners, I	LLC
--------------------------	-----

#### Point of contact

Name Danell Zawaski

Telephone <u>505-634-4951</u> Email <u>danell.zawaski@williams.com</u>

Mailing address 188 County Road 4900, Bloomfield, NM 87413

• Facility name Richardson Straddle Compressor Station

#### Facility location

Unit Letter, Section, Township, Range <u>SE/4 SE/4 S10 T31-N R12-W (San Juan County)</u> Street address (if any)\_\_\_\_\_

Facility type Refinery     Crude Oil Pump Station     Geothermal     Other (describe)	Gas Plant Injection Well Abatement	X Compressor
Current and Past Operations (please ch     Impoundments     Disposal Well	neck all that apply)	☐ Waterflood ☐ Wash Bay
	ion * 1220 South St. Francis Driv ə, New Mexico 87505	e .

	Steam Cleaning Groundwater Remediation
	Facility Status X Active Idle Closed
	• Does this facility currently have a discharge permit? X Yes 🗌 No
	If so, what is the permit number? <u>GW-320</u>
	• Are there any routine activities at the facility which intentionally result in materials other than potable water being released either onto the ground or directly into surface or ground water? (This includes process activities, equipment maintenance, or the cleanup of historic spills.)
	If so, describe those activities including the materials involved, the frequency of discharge, and the estimated volume per discharge event.
	• What is the depth below surface to shallowest ground water in the area?
	<ul> <li>What is the depth below surface to shallowest ground water in the area?</li></ul>
	<ul> <li>What is the depth below surface to shallowest ground water in the area?</li></ul>
	<ul> <li>What is the depth below surface to shallowest ground water in the area?</li></ul>
	<ul> <li>What is the depth below surface to shallowest ground water in the area? _&gt;50 ft</li> <li>Are there any water supply, groundwater monitoring, or recovery wells at the facility? Water supply Monitoring Recovery</li> <li>If these wells are registered with the Office of the State Engineer (OSE), what are the OSE well numbers?</li> <li>Are abatement actions ongoing? No</li> <li>Are there any active or inactive UIC wells present as part of the federal Underground</li> </ul>
	<ul> <li>What is the depth below surface to shallowest ground water in the area? _&gt;50 ft</li></ul>
	<ul> <li>What is the depth below surface to shallowest ground water in the area? _&gt;50 ft</li></ul>
	• What is the depth below surface to shallowest ground water in the area? _>50 ft • Are there any water supply, groundwater monitoring, or recovery wells at the facility? Water supply Monitoring Recovery If these wells are registered with the Office of the State Engineer (OSE), what are the OSE well numbers? • Are abatement actions ongoing? No • Are there any active or inactive UIC wells present as part of the federal Underground Injection Control program associated with this facility? Yes X No If so, what are the API numbers assigned to those wells? • Are there any sumps at the facility? Yes X No If so, what are the API numbers assigned to those wells?
