Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit

Only Water Quality Control Commission- regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date or November 15, 2012, whichever is later. All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermal regulations.

Proper completion and timely submission of this questionnaire is requested for all facilities with discharge permit expiration dates before November 15, 2012. Please complete and submit a separate questionnaire for each facility before July 15, 2011.

• Name of the owner or operator of the facility

Southern Union Gas Services, Ltd.

Point of contact

Name: Rose Slade

Telephone: 432-940-5147

Email: rose.slade@sug.com

Mailing address: 801 S. Loop 464, Monahans, Texas 79756

Facility name: C-4 Compressor Station

Facility location

Unit Letter, Section, Township, Range_ULT_N, Sec. 9, Township 22 South, Range 36 East_Street address (if any)_____

• Facility type Refinery Crude Oil Pump Station Geothermal Other (describe)	Gas Plant Injection Well Abatement	Compressor
		+

• Current and Past Operations (please check all that apply)

Impoundments Disposal Well	Treatment Plant Brine Well	☐ Waterflood ☐ Wash Bay

 Steam Cleaning Groundwater Remediation Facility Status Active Idle Closed Does this facility currently have a discharge permit? Yes No If so, what is the permit number? <u>GW-262</u> Are there any routine activities at the facility which intentionally result in materials of than potable water being released either onto the ground or directly into surfac ground water? (This includes process activities, equipment maintenance, or the cleanup of historic spills.) Yes No 	
 Does this facility currently have a discharge permit? Yes No If so, what is the permit number? <u>GW-262</u> Are there any routine activities at the facility which intentionally result in materials of than potable water being released either onto the ground or directly into surface ground water? (This includes process activities, equipment maintenance, or the cleanup of historic spills.) 	
If so, what is the permit number? <u>GW-262</u> • Are there any routine activities at the facility which intentionally result in materials of than potable water being released either onto the ground or directly into surfac ground water? (This includes process activities, equipment maintenance, or the cleanup of historic spills.)	
• Are there any routine activities at the facility which intentionally result in materials of than potable water being released either onto the ground or directly into surfac ground water? (This includes process activities, equipment maintenance, or the cleanup of historic spills.)

÷ + + 2

• Does the facility incorporate any underground lines other than electrical conduits, freshwater, natural gas for heating, or sanitary sewers? Xes No If so, what do those buried lines contain?

Condensate, Natural Gas (as a product), Natural Gas (Compressor Fuel Gas), Engine Lubrication Oil, Engine Antifreeze and compressor skid washdown water

THIS FORM IS DUE TO THE OIL CONSERVATION DIVISION BY JULY 15, 2011.

Questions? Please contact Glenn VonGonten at 505-476-3488 or Carl Chavez at 505-476-3490.

Thank you for your cooperation.
