Subject: RE: Enterprise Lat 2C-45 line leak-apparent GW impact discovered today

Understood and will comply. I do believe that we will be able to excavate the contamination out and get clean water samples. We will ensure that the State is involved in this process.

Sincerely,
aaron

Aaron,

Thanks for the notice. Please follow up with a C-141 to both Aztec and Santa Fe.

Glenn

Subject: Enterprise Lat 2C-45 line leak-apparent GW impact discovered today

Wanted to communicate an apparent GW impact as a result of a 4" natural gas gathering line leak. Lat 2C-45, Sec 25, T 25 N R 6 W, Lat 36.38347 N, Lon.-107.41676 This was discovered today at approximately 9:00 am while removing contaminated soil and investigating the impact.

I also left a message on your phone with these details this morning, Glenn.

Animas Environmental is on site and will be providing the third party environmental oversight and support for this impacted area.

Please don't hesitate to contact me if you have any questions.

Aaron
