Mike,

As per our conversation, I have requested closure on this location 10/18/12. I would also like to request backfill, contingent on closure approval. Please reply.

Thank you,

Amanda N. Trujillo

Amanda,

I just completed a field check this morning and am OK with the closure. In addition to the closure of the site(s), we need to have a major house cleaning of the entire facility/well location, removing all scrap/debris and mic. out-of-service equipment, etc. A site in this condition attracts a lot of unwanted attention. If any questions, please get back with me.

Thanks,

J. Amos

Jim,
Would you like to schedule a witnessed sampling? If not, I will apply for closure based on current analytical data.

Amanda,

Sorry for not getting back sooner. I don't necessarily need to witness the samples at this site, unless Jim wants to schedule for one.

Thanks,

Mike Bratcher

Mike and Jim,

Excavation and reconstruction is complete at the Anemone Battery. Below you will find a summary of soil analysis at final depth of the excavation. Would you like to schedule a witnessed sampling?
