James and Mike,

We will be onsite at the Empire J Federal #3 Site on Tuesday (8-30-11 at 1:30pm MST). Let me know if this will work for you, thanks

Ike Tavarez

Ike,

After lunch would work best for me and sounds like it may work best for Jim.

Let me know,

Hollie

James and Mike,

Please find the enclosed data and plats on the sampling performed at the Alamo -Empire J Federal #3 located in Eddy County, NM. Referring to Table 1, majority of the impacted areas were not vertically defined and deeper samples could not be collected due to the dense formation. Southern NM

Archaeological Service, Inc (SNMA) has completed the survey and found not arch sites in vicinity of the spill area. The arch survey report has been forward to the BLM for review. Based on the site location, we would like to setup an onsite meeting (Tuesday 8-30-11) to inspect spill area, evaluate access and discuss remedial

options for the site. Please let me know if you have any questions or need additional information.

Let me know on the onsite meeting, thanks
