REQUEST FOR ADMINISTRATIVE APPROVAL FOR NONSTANDARD LOCATION FOR  
XTO ENERGY INC.

FLORANCE 74

2250' FSL & 790' FEL SEC. 19, T. 27 N., R. 8 W., SAN JUAN COUNTY, NM

I. The well is on BLM surface and on BLM oil and gas lease (NMNM-003380). The proposed location is nonstandard for the WC Basin Mancos due to topography. (NSL approval for the Blanco Pictured Cliffs South in this same well was previously issued on March 6, 2005 via NSL-5161, also for topography.) A standard location must be at least 660' from the quarter line. This well is staked 270' further north than is standard. (Closest standard location would be 1980' FSL and 790' FEL.) The APD cover sheet is attached as EXHIBIT A.

II. A C-102 showing the well location and pro ration unit (SE4 Sec. 19) is attached (EXHIBIT B). Relevant parts of the BLM oil and gas lease (2,400.96 acres) are shown as solid lines on the attached (EXHIBIT C) copy of the Fresno Canyon USGS topo map.

The well encroaches on the NE4 Section 19. The WC Basin Mancos in that quarter section has been dedicated XTO's Florance 72 which is on the same lease. WC Basin Mancos acreage dedications (quarter sections) are shown on Exhibit D. That quarter section is the only WC Basin Mancos dedication in the 8 adjacent quarter sections.

III. According to NM Oil Conservation Division and ONGARD records reviewed on June 6, 2005; the closest existing or planned WC Basin Mancos well is XTO's existing Florance 72 well which is 2,381' north at 775' FNL & 1555' FEL 19-27n-8w and on the same lease. EXHIBIT D shows the proposed well site, WC Basin Mancos dedicated spacing units, and WC Basin Mancos wells within those dedications.

Registered letters were sent on June 6, 2005 to all of the offset interest owners. Copies of the postal receipts and letters are attached.

IV. A copy of the USGS map is attached (EXHIBIT D). The proposed well site is marked. Pro ration unit (solid line) for the WC Basin Mancos gas is the 160.00 acre southeast quarter of Section 19, Township 27 North, Range 8 West, San Juan County, NM.

Farmington, NM 87401

As required by New Mexico Oil Conservation Division Rules, I am notifying you of the following nonstandard location (NSL) for a well. This letter is a notice only. No action is needed unless you have questions or objections.

XTO Energy Inc. is applying to drill its Florance 74 gas well. The minimum state distance for such a gas well is 660' from a quarter section line. The proposed well is 270' further north than is standard. Thus, it is a nonstandard location. The NSL is due to topography. It is 790' from the closest lease boundary.

Well Name: Florance 74      Total Depth: 7,675'

Proposed NSL Producing Zones: Blanco Pictured Cliffs South

NSL Acreage Dedication: 160 acres (= SE4)

Location: 2250' FSL & 790' FEL Sec. 19, T. 27 N., R. 8 W.,  
San Juan County, NM on Federal lease NMNM-003380

Approximate Location: ≈13 air miles southeast of Blanco, NM

Applicant Name: XTO Energy Inc. (505) 324-1090

Applicant's Address: 2700 Farmington Blvd, Bldg. K-1, Farmington, NM 87401

Submittal Information: Application for a nonstandard location will be filed with the NM Oil Conservation Division. If they determine the application complies with the applicable regulations, then it will be approved. The New Mexico Oil Conservation Division address is 1220 South St. Francis Dr. Santa Fe, NM 87505. Their phone number is (505) 476-3440.
