Describe Area Affected and Cleanup Action Taken.\* **N/A**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** flaring

Hello,

I hope you had a great Christmas break ☺ Since I was out, there were flares:

CE Lamunyon #1 Battery (750 MCF) and Elson Battery (43 MCF) starting 12/22/11 due to Southern Union Gas shutting down for line repairs.

Cypress 34 & Goodnight 21 Batteries (MCF's unknown) due to DCP emergency shut down on 12/24/11.

As soon as I get all the proper information for the C-129's I will send them to you. I'm sorry for the delay.

Thank you!
