Mike and Terry,

Tetra Tech is preparing to start the soil remediation on the above reference site. We will be spotting lines on Tuesday (3-27-12) and starting the proposed remediation late that afternoon or tomorrow morning. The remediation will be performed according to the approved work plan. Tetra Tech will also notify you during each phase of the remediation project. We will call if the schedule changes or have any delays on the project. Let me know if you need additional information, thanks
