If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

A transfer line leak caused 5 bbls of oil and 20 bbls of produced water to spill onto the ground. No fluids were recovered. Remediation will be performed according to an OCD approved remediation plan.

Describe Area Affected and Cleanup Action Taken.*

The area affected is approximately 60' x 200'. A transfer line leak caused 5 bbls of oil and 20 bbls of produced water to spill onto the ground. No fluids were recovered. Remediation will be performed according to an OCD approved remediation plan.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: LOST TANK 35 STATE 4 CTB BATTERY

This is to inform you that Oxy Permian Primary had a produced water/oil leak on the Lost Tank 35 State #4 on Friday June 1, 2012. Oxy released 5 bbls of oil, and 20 bbls of water due to a line leak on the 3 inch poly produced water transfer line. The battery is located in Section 35, Township 21 South, Range 31 East of Eddy County. Oxy will do some initial remediation, a C-141 to follow. BBC International will delineate at a later date. Driving directions: FROM WHIPP ACCESS RD AT MILE MARKER 6 TURN EAST GO 1 MILE TO BATTERY . If you have any questions let me know.

Thank You
