The pipeline was vented to atmosphere to tie-in a new well (EOG well PW23)

Describe Area Affected and Cleanup Action Taken.\*

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**RE: Form C-141 Report for Enterprise Products  
Zircon Lateral Line Blow-down Release**

Mr. Bratcher:

Pursuant to 29 (19.15.29) NMAC please find enclosed the requisite C-141 Form for the blow down release on our Zircon Lateral gathering line in Eddy County. The blow down was completed to facilitate a tie-in of a new well to the Enterprise system.

If you have any questions or need more information, please contact Jim Heap by phone at 432-686-5404, by email at [jkheap@eprod.com](mailto:jkheap@eprod.com) or me at 713-318-6684

Regards,

Matthew E. Marra  
Senior Director, Environmental
