Reference: OXY Permian \* Indian Basin Gas Plant (IBGP-PC-51-0100) \* 23-21s-23e \* Eddy County, New Mexico  
NMOCD tracking number: 2RP-1992 \* Date of release: 9/12/2013

The proposal for remediation of the above referenced release, prepared and submitted to OCD by Talon, LPE, is approved. Some soil removal will be required in the area identified as S-5, to address the slightly elevated chloride levels. Contact OCD upon receipt of confirmation sample analyses, and prior to backfill in the area identified as S-4. Field screen will be sufficient for confirmation in the S-5 area.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
