Jim Amos- Bureau of Land Management,

The release that occurred at the Llama ALL Federal Battery #1 on 01/04/2014 breached the location and flowed NW of the berm into the pasture. Attached is a sketch of the area affected by the release with measurements of the area to be remediated if there are no archeological study issues to prevent remediation. A One Call has been submitted and we would like to begin excavation, back dragging as soon as the One Call clears next week if there are no issues that would prevent remediation.

Thanks,

Chase Settle Environmental Regulatory Agent Yates Petroleum Corporation 105 S. 4th Street Artesia, NM 88210 575-748-4171 (Office) 575-703-6537 (Cell)
