Describe Area Affected and Cleanup Action Taken.* Some of the spill was contained inside the impervious containment, some of the spray area got outside the containment and affected an area previously impacted by a reportable spill at the same location on 9/9/13. Both spills are scheduled to be cleaned up in accordance with the NMOCD standards beginning on 11/18/13.

Please find the attached Basin Environmental Services Technologies Remediation Summary and Site Closure Request for remediation activities.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
