I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mike,

Per my previous email regarding the release on the Alamo Permian Resources' West Artesia Grayburg Unit Injection Station, attached is the initial C-141 written notification. Let me know if you have any questions.

Thanks,

Carie Stoker

Mike,

Please let this serve as initial notification of a PW release of 15 bbls at Alamo Permian Resources' West Artesia Grayburg Unit Injection Station. A transfer tank overflowed. I will file an initial C141 as soon as I have further details.

Thanks,

Carie Stoker
