Ike,

Your proposal for remediation of the Skyhawk State (005) water line release is approved. The API number for this site is 30-015-35103 and OCD tracking number is 2RP-1962. Please advise in the event proposed excavation depths are not achieved and/or if a liner will be installed. Also, advise of the proposal for areas identified as requiring additional delineation.

Mike,

I scanned the incorrect work plan for the COG - Slyhawk State Waterline. The correct work plan is enclosed for your review and approval. Sorry for the confusion, thanks

Ike Tavarez

Mike,

Please find the enclosed COG -Work Plans for the above referenced sites located in Eddy County, New Mexico. The work plans includes the soil assessments and recommendations for remediation for each of the

sites. I will mail you a hard copy of the work plans for your files. Once approved, Tetra Tech will schedule the soil remediation and notify you prior to implementing the work plan. Please let me know if you need additional information or call me if you have any questions, thanks

Mike,

Tetra Tech will be onsite Monday (2-24 -14) to start the proposed remediation on the above referenced site. We will be spotting lines at the facility and will start the excavation in the afternoon. The remediation will be performed according to the submitted work plan. Tetra Tech will also notify you during each phase of the remediation project or any schedule changes or delays on the project. Let me know if you need additional information, thanks
