#### NATURE OF RELEASE

Type of Release: <b>Produced Water</b>	Volume of Release <b>35 bbls</b>	Volume Recovered <b>32 bbls</b>
Source of Release: <b>Discharge Water Line</b>	Date and Hour of Occurrence <b>08/09/2013</b>	Date and Hour of Discovery <b>08/09/2013 11:00am</b>
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? <b>Mike Bratcher - NMOC D</b>	
By Whom? <b>Michelle Mullins</b>	Date and Hour <b>08/12/2013 1:38pm</b>	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. <b>N/A</b>	

If a Watercourse was Impacted, Describe Fully.\*

N/A

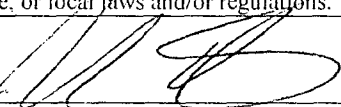

Describe Cause of Problem and Remedial Action Taken.\*

Valve washed out on the discharge line. Removed discharge line going to the remover pump.

Describe Area Affected and Cleanup Action Taken.\*

Initially 35bbls of produced water were released from a discharge water line. COG personnel were able to recover 32bbls with a vacuum truck. Tetra Tech inspected site and collected samples to define spill extents. Soil that exceeded RRAL was removed and hauled away for proper disposal. The impacted areas inside the firewalls were excavated to depth of approximately 3-4' below surface and capped with clay. Any impacted soil not accessible will be deferred. Site was then brought up to surface grade with clean backfill material. Tetra Tech prepared closure report and submitted to NMOC D for review.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOC D rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOC D marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOC D acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
