If a Watercourse was Impacted, Describe Fully.* N/A

Describe Cause of Problem and Remedial Action Taken.*

Line leak caused discharge of an unknown amount of natural gas and greater than 5 bbls of condensate onto the ground. Line has been shut in and will be depressurized prior to repair.

Describe Area Affected and Cleanup Action Taken.*

Affected area is approximately 20 feet by 50 feet. Any free liquids will be vacuumed up and contaminated soil excavated and removed.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
