**OIL CONS. DIV DIST. 3**

If a Watercourse was Impacted, Describe Fully.\*

**JUN 20 2014**

N/A

Describe Cause of Problem and Remedial Action Taken.\*

A bypass valve on a dump line was inadvertently left open. The bypass valve was immediately closed upon discovery.

Describe Area Affected and Cleanup Action Taken.\*

No cleanup required with gas release.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
