**REQUEST FOR ADMINISTRATIVE APPROVAL  
APACHE CORPORATION'S  
OUTLAW STATE 2  
30-015-42554  
990' FSL & 990' FEL  
SECTION 29, T. 17 S., R. 28 E., EDDY COUNTY, NM**

I. This existing oil well is on State surface and a State oil and gas lease. The well is nonstandard (17' too far north and 17' too far west) for the Artesia; Glorieta-Yeso Pool (96830) due to a battery on the east and pipelines on the south (see EXHIBIT A). Apache requests a nonstandard location due to land uses. A standard location would be too close to a tank battery and force multiple pipelines to be moved. In addition, there are 4 rights-of-way, 3 LRE wells, and 3 Apache wells in the quarter-quarter,

A standard location must be  $\geq 330'$  from the boundary of the quarter-quarter according to Order R-8539 et al. In this case, it is 313' from the north and west sides of unit letter P. (The east side of Section 29 is shorter than normal. Length of the east side of Section 29 is 5,195.52'.)

II. Revised Form C-102 showing the well and 40-acre dedication is attached as Exhibit B. The well is 17' too far north and 17' too far west.

III. Lease boundaries are shown on EXHIBIT C. The well encroaches to the north, northwest, and west. Encroachments to the northwest and west are toward the interior of the lease. Encroachment to the north is toward a separate state lease operated by Apache. Artesia; Glorieta-Yeso dedications exist in unit letter P of Section 29 and 5 bordering or cornering quarter-quarters or lots. Unit letter M of Section 28 and unit letter D of Section 33 do not have Yeso wells. See Exhibit D. This information is current and correct.

IV. Archaeology is not an issue.

V. Surface issues (tank battery and pipelines) and the need to prevent waste and recover additional reserves drive the need for this nonstandard location.

VI. Apache does not believe directional drilling to a standard location is cost effective for this well.

VII. I hereby attest that I, on or before the date that the application was submitted to the division, sent notification to the affected persons (see EXHIBIT E) by certified mail, return receipt requested, advising them that if they have an objection it must be filed in writing within 20 days from the date the division receives the application. These affected persons have working or royalty interests in quarter-quarters that border the 40-acre spacing unit. Said notice was sent to:

East side is 5,195.52'.

I'm not sure why BLM did not create lots.

The footage calls are 990 FSL and 990 FEL Section 29 T17s R28E.

This is a 40-acre unit. So why is an NSL required with a 40-acre unit? Restated how can you be 313 feet from the unit and not a lot boundary?

Thank You
