Subject: Cedar Canyon 28 Federal #4 SWD Battery

This is to inform you that Oxy Permian Primary NM South had a release at the Cedar Canyon 28 Federal #4 SWD Battery on January 28, 2014. Oxy released 10 bbls of oil and 20 bbls produced water. All free-standing liquids were recovered for a total of 29 bbls. The release is located in Section 28, T24S, R29E of Eddy County, NM. BBC International will delineate the location at a later date and an initial C-141 will follow. Driving directions: From Carlsbad, go South on US 285 to Malaga, turn left on Duarte Rd and go 2.5 to 3 miles, turn right on McDonald Rd, turn right 1 mile before the river crossing at the Oxy Drive Safe sign, facility is on the right side of the road.
