**REQUEST FOR ADMINISTRATIVE APPROVAL
APACHE CORPORATION'S
T REX STATE 1
30-015-41770
330' FNL & 2270' FEL
SECTION 31, T. 17 S., R. 28 E., EDDY COUNTY, NM**

I. This proposed oil well is on private surface and a State oil and gas lease in a smaller than standard section (below). The well is nonstandard (18' too far west) for the Artesia; Glorieta-Yeso Pool (96830) due to pipelines on the southeast (see EXHIBIT A). Apache requests a nonstandard location due to land uses. A standard location would force 1 buried pipeline and 3 surface pipelines to be moved. In addition, there are 2 existing oil wells (Empire; Yates - Seven Rivers), 4 other proposed Apache wells (all Artesia; Glorieta-Yeso), multiple roads, an overhead power line, and a guyed communications tower in the quarter-quarter.

A standard location must be $\geq 330'$ from the boundary of the quarter-quarter according to Order R-8539 et al. In this case, it is $\approx 312'$ from the west side of unit letter B. (The north side of the NE4 of Section 31 is shorter than normal. Length of the north side of NE4 Section 31 is 2,581.92' instead of 2,640'.)

II. Form C-102 showing the well and 40-acre dedication is attached as Exhibit B. The well is 18' too far west.

III. Lease boundaries are shown on EXHIBIT C. The well encroaches to the west, northwest, and north. Artesia; Glorieta-Yeso (O) {96830} dedications exist in unit letters A, B, and H of Section 31. Red Lake; Glorieta-Yeso, Northeast {96836} dedications existing unit letters N, O, and P of Section 30 and unit letter G of Section 31. There are no Glorieta or Yeso dedications in unit letters C and F of Section 31. See Exhibit D for Glorieta-Yeso unit operators. This information is current and correct.

IV. Archaeology is not an issue.

V. Surface issues (3 surface pipelines and 1 buried pipeline) and the need to prevent waste and recover additional reserves drive the need for this nonstandard location.

VI. Apache does not believe directional drilling to a standard location is cost effective for this well.

VII. I hereby attest that I, on or before the date that the application was submitted to the division, sent notification to the affected persons (see EXHIBIT E) by certified mail, return receipt requested, advising them that if they have an objection it must be filed in writing within 20 days from the date the division receives the application. These affected persons have working or royalty interests in quarter-quarters that border the 40-acre spacing unit. Said notice was sent to:

Roswell NM 88202

As required by New Mexico Oil Conservation Division Rules, I am notifying you of the following nonstandard location (NSL) for a well. This letter is a notice only. No action is needed unless you have questions or objections.

Apache Corporation is applying for NSL approval for its T Rex State 1 oil well. Minimum state distance for such an oil well is 330' from a quarter-quarter line. The well is 18' further west than is standard (see attached application). Thus, it is a nonstandard location. The NSL is due to land uses (pipelines) and a smaller than a standard quarter-section.

Well Name: T Rex State 1 ID: 5,300'

Proposed NSL Zone: Artesia; Glorieta-Yeso (O)

NSL Acreage Dedication: 40 acres (NWNE Section 31, T. 17 S., R. 28 E., Eddy County, NM) on NMSLO lease B0-1538-0016

Location: ~11 air miles southeast of Artesia, NM at 330 FNL & 2270 FEL 31-17s-28e

Applicant Name: Apache Corporation (432) 818-1168

Applicant's Address: 303 Veterans Airpark Lane, Suite 300, Midland TX 79705

Submittal Information: Application for a nonstandard location will be filed with the NM Oil Conservation Division (NMOCD). If you have an objection, then it must be filed in writing within 20 days from the date the NMOCD receives the application. The New Mexico Oil Conservation Division address is 1220 South St. Francis Dr. Santa Fe, NM 87505. Their phone number is (505) 476-3440.

Please call me if you have any questions.

Sincerely,

Brian Wood
