Source of Release	Trucking	Date and Hour of Occurrence	12/20/2010 @ 11:25	Date and Hour of Discovery	12/20/2010 @ 11:25
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required				
	If YES, To Whom? Verbal notification to Mike Bratcher				
By Whom?	Jason Henry	Date and Hour	12/21/2010 @ 14:30		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No				
	If YES, Volume Impacting the Watercourse.				

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

This release occurred at an XTO tank battery. During the process of loading oil in a trailer, the Plains driver encountered problems with the stop mechanism. While the driver was troubleshooting the problem, the trailer overfilled with oil. The impacted caliche was excavated and transported off-site for disposal at an NMOCD approved facility.

Describe Area Affected and Cleanup Action Taken.\*

The impacted caliche was excavated and transported off-site for disposal at an NMOCD approved facility. Confirmation samples were collected from the excavated area and then the excavated area was backfilled with clean caliche purchased from an off-site source. Please see the attached Nova Safety & Environmental Remediation Summary and Site Closure Request for details of remedial activities conducted at the site.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
