**REQUEST FOR ADMINISTRATIVE APPROVAL
APACHE CORPORATION'S
JACKRABBIT STATE 12
30-015-42985
1470' FNL & 2405' FWL
SECTION 32, T. 17 S., R. 28 E., EDDY COUNTY, NM**

I. This proposed 5,300' deep oil well is on private surface and a State oil and gas lease. The well is nonstandard (132' too far west and 180' too far north) for the Artesia; Glorieta-Yeso Pool (96830) due to 4 pipelines east of the center stake, paved Illinois Camp county road that is east and southeast of the pad (see EXHIBIT A), and a buried pipeline that is 175' south of the center stake.

Apache requests a nonstandard location due to land uses. The SWNE Section 32 is occupied by 1 P&A well, 3 active oil wells operated by LRE, and other miscellaneous pipelines, power lines, and roads. In addition, Apache has 2 approved oil wells and COG has an approved sand and gravel pit in the same quarter-quarter.

A standard location must be $\geq 330'$ from the boundary of the quarter-quarter. In this case, it is 150' from the north side of unit letter G and 198' from the west side of unit letter G.

II. Form C-102 showing the well and 40-acre dedication is attached as Exhibit B. The well is 132' too far west and 180' too far north.

III. Lease boundaries are shown on EXHIBIT C. The well encroaches to the north, northwest, and west. Artesia; Glorieta-Yeso dedications exist in unit letter G of Section 32 and all 8 bordering or cornering quarter-quarters or lots. Apache operates the Artesia; Glorieta-Yeso wells in 5 quarter-quarters. LRE operates the Artesia; Glorieta-Yeso wells in NENW and N2SE4 Section 32. See Exhibit D. This information is current and correct.

IV. Archaeology is not an issue.

V. Surface issues (paved county road and pipelines) and the need to prevent waste and recover additional reserves drive the need for this nonstandard location.

VI. Apache does not believe directional drilling to a standard location is cost effective for this well.

VII. I hereby attest that I, on or before the date that the application was submitted to the division, sent notification to the affected persons (see EXHIBIT E) by certified mail, return receipt requested, advising them that if they have an objection it must be filed in writing within 20 days from the date the division receives the application. These affected persons have working or royalty interests in quarter-quarters that border the 40-acre spacing unit. Said notice was sent to:

Houston, TX 77002

Dear Bobby,

As required by New Mexico Oil Conservation Division Rules, I am notifying you of the following nonstandard location (NSL) for a well. This letter is a notice only. No action is needed unless you have questions or objections.

Apache Corporation is applying for NSL approval for its Jackrabbit State 12 oil well. Minimum state distance for such an oil well is 330' from a quarter-quarter line. The well is 132' further west than is standard and 180' further north than is standard (see attached application). Thus, it is a nonstandard location. The NSL is due to land uses (well and other infrastructure).

Well Name: Jackrabbit State 12 **ID:** 5,300'
Proposed NSL Zone: Artesia; Glorieta-Yeso (O)
NSL Acreage Dedication: 40 acres (SWNE Section 32, T. 17 S., R. 28 E., Eddy County, NM) on NMSLO lease XU-0647-0405
Location: ~12 air mile west of Loco Hills, NM at 1470 FNL & 2405 FEL 32-17s-28e
Applicant Name: Apache Corporation (432) 818-1168
Applicant's Address: 303 Veterans Airpark Lane, Suite 300, Midland TX 79705

Submittal Information: Application for a nonstandard location will be filed with the NM Oil Conservation Division (NMOCD). If you have an objection, then it must be filed in writing within 20 days from the date the NMOCD receives the application. The New Mexico Oil Conservation Division address is 1220 South St. Francis Dr. Santa Fe, NM 87505. Their phone number is (505) 476-3440.

Please call me if you have any questions.

Sincerely,

Brian Wood
