Reference: Holly Energy Partners * Beeson Pump Unit 1 * C-3-18s-30e * Eddy County, New Mexico
NMOCD Reference number: 2RP-2016 * Date of release: 10/18/2013

Mr. Green,

NMOCD is in receipt of a proposal for remediation of the above referenced produced fluid release. The proposal was submitted to OCD on behalf of Holly Energy, by SESI, Inc. The proposal for remediation is approved. Please notify OCD prior to commencement of remedial activities. Surface ownership has been identified as BLM, so this approval will be subject to review and approval by BLM.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
