REVISED

Gentlemen:

Attached is a copy of the allocation for the commingling of the subject well for the Lewis pay add that was completed 7-17-01. DHC-1503 was issued for this well.

Gas:	Mesaverde	63%
	Dakota	37%

Oil:	Mesaverde	48%
	Dakota	52%

These percentages were calculated using rate-time reserve estimate comparisons for each respective formation. Because the Lewis formation was the only formation added during operations, the oil allocation has stayed the same as it was prior to working over the well. Please let me know if you have any questions.

Sincerely,

Peggy Cole
