Subject: Amendment to surface commingle Order PLC-172A

Dear Mr. Catanach & Mr. Lovato:

XTO Energy Inc. (XTO) requests an amendment to Surface Commingle PLC-172A to include the Ohio E Government #2 and the Ohio F Government #2. Adding these wells to the existing surface commingle will greatly enhance productivity by utilizing an existing compressor.

Gas produced shall be allocated to each lease by separately metering production from each well prior to commingling while oil production will not be commingled. The commingled natural gas production shall be delivered to the sales meter at the Ohio E Government #18-1, located in NW/4 NE/4 Section 18, Township 31North, and Range 12 West.

Interest owners for this surface commingle addition are all common and identical within pools. Enclosed you will find plats for both wells, which shows they are located within the same acreage as the existing surface commingle PLC-1272A, approved on July 19, 2000.

If you require further information, please call me at (505) 564-6720.

Sincerely,

A handwritten signature in cursive script that reads "Holly C. Perkins".

Holly,

I'm looking at your request to add two wells to PLC-172-A. There are three federal leases involved in this application, the Ohio D, E and F. Is the interest ownership between these three leases common?

(i.e. same interest owners, same percentage ownership). If it is, I think we can approve this application as submitted. If it is different ownership, you guys may have to provide notice to interest owners because we are amending the order to add a new pool, the Aztec-Pictured Cliffs.
