Consolidating our battery facilities will extend the economic life for these wells and lessen surface disturbance. The wells above all have diverse ownership and each well will produce into a dedicated test separator and have continuous metering. Commingling will not reduce the value of production.

These wells will be producing from the N. Seven Rivers;Glorieta-Yeso 97565. Attached is a diagram of the battery facility, a map showing the well locations and the location of the CTB, admin checklist, and notice to all interest owners and publication.

Please contact me at 432-685-4332 should you have any questions.

Sincerely,

COG Operating LLC
