Tom,

OCD would prefer to have the release area excavated to the maximum extent practicable down to the 10' interval, especially in the area identified as BH-1. Please advise excavation depth achieved prior to installation of the liner.

Thank you,

Mike and James,

Please find the enclosed Work Plan for the above reference spill site located in Eddy County, New Mexico. The work plan includes the soil assessment and remedial recommendations for the spill. I will mail you a hard copy of the work plan for your files. Once approved, Tetra Tech will schedule the soil remediation and notify you prior to implementing the work plan. Please let me or Ike Tavaréz know if you need additional information.
