If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

A gasket failure on heater treater resulted in a hydrocarbon fire at the battery. The Loco Hills and Riverside Volunteer Fire Departments were dispatched to extinguished fire. Roustabout crews and vacuum trucks were onsite recovering standing fluid from inside the berm and storage tanks.

Describe Area Affected and Cleanup Action Taken.*

The majority of the release was contained to the lease pad except for a small area of pasture on the south side which was impacted by oil sludge carried over by fresh water from fire department.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
