RE: Liquid Resource Services
Hobbs State #3
Remediation

Mr. Leking:

LRS has completed the removal of a water tank and the remediation of the soil at the site. All of the contaminated soil was excavated and hauled to Sundance Services for disposal, a total of 1200 cu. yds. After sampling and getting approval, the site was backfilled and leveled.

Find enclosed analytical, photos and attachments. Should you have any questions, please call.

Sincerely,

A handwritten signature in dark ink, appearing to read "Eddie W. Seay". The signature is fluid and cursive, with a long, sweeping underline that extends to the right.
