**Subject:** RE: REVISED AID 24 STATE PW TRANSFER LINE

Reference: Lime Rock Res. \* AID 24 St Com 1 \* 30-015-22878 \* N-24-17s-28e \* Eddy County, New Mexico

NMOCD Reference Number: 2RP-809 \* Date of Release: 7/21/11

Mike,

Your request to backfill the excavation associated with above referenced release is approved. It is OCD's understanding that the release ran across Apache Corporation's D State 5 well site, and that the footprint of the Lime Rock release has been excavated. In the work plan approval emailed October 19, 2011, I had requested a representative sample be obtained from the area just west of "S-6" (a pipeline ROW). Please provide that data prior to, or with, the final closure request/report.

If you have any questions or concerns, please contact me.

**Subject:** FW: REVISED AID 24 STATE PW TRANSFER LINE

Dear Mr. Mike Bratcher,

Talon/LPE is sending you the analytical results for the soil samples collected from the Aid 24 State PW Transfer line release. As presented on the work plan for the remediation of the release, previous analytical results have reported background for the chlorides on the location to be 0' Cl.-1680 ppm, 2' bgs Cl.-640 ppm. Based on the analytical results Lime Rock Resources LLC is requesting permission to backfill the excavated area on the location.

Sincerely,

Mike Stubblefield  
Talon/LPE Project Manager

Celey,

Please amend the analytical report for the Aid 24 State Transfer release.  
I have send you the corrected Chain of Custody with the new Sample numbers attached.

Mike Stubblefield
