Dear Mr. Lowe:

Pursuant to Division Rule 19.15.15.13, Mewbourne Oil Company ("Mewbourne") respectfully requests administrative approval of an unorthodox gas well location for its proposed Devon 8 W2PM Fee No. 1H. This well will be drilled as a horizontal gas well in the Sulphate Draw; Wolfcamp (Gas) Pool (85780).

The Devon 8 W2PM Fee No. 1H will be dedicated to a standard 320-acre gas spacing and proration unit comprising the S/2 of Section 8. There are currently no other existing Wolfcamp producing wells within the proposed spacing unit.

The Sulphate Draw; Wolfcamp (Gas) Pool is currently governed by Division Rule 19.19.15.10 which requires standard 320-acre gas spacing and proration units with wells to be located no closer than 660 feet to the outer boundary of the spacing unit, nor closer than 10 feet to any interior quarter-quarter section line or subdivision inner boundary, or in the case of a horizontal well, no closer than 660 feet to the outer boundary of the producing area.

The unorthodox location is necessary in order to maximize the recovery of oil and gas reserves from the Wolfcamp formation underlying the S/2 of Section 8.

The affected offset acreage comprises all of Section 7, N/2 of Section 8, all of Section 9, all of Section 16, all of Section 17 and all of Section 18, Township 25 South, Range 28 East, NMPM, (See Attached Map). There are currently the following Wolfcamp producers within the offset acreage:

- San Lorenzo 9 OB Fee No. 1H (API No. 3001541304), Section 9, T25S, R28E

Consequently, notice of this application is being provided to Occidental Permian Limited Partnership, Devon Energy Production Company, L.P., COG Operating LLC, Chevron U.S.A. Inc. and McCombs Energy, Ltd..

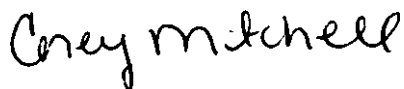

Attached is a Form C-102 showing the surface, first take point, last take point and bottomhole locations for the Devon 8 W2PM Fee No. 1H. Also, attached is a map showing the affected offset acreage, notice list and offset notice letter.

In summary, approval of the application will provide Mewbourne Oil Company the opportunity to recover additional oil and gas reserves from the Sulphate Draw; Wolfcamp (Gas) Pool underlying the S/2 of Section 8 that may otherwise not be recovered, thereby preventing waste, and will not violate correlative rights.

Should you have any questions regarding the above, please email me at cmitchell@mewbourne.com or call me at (432) 682-3715.

Sincerely,

MEWBOURNE OIL COMPANY

Subject: Devon 8 W2PM Fee Well No. 1H Pool

Paul:

can you tell me what would be the Wolfcamp Pool for the Mewbourne Oil Company. Devon W2PM Fee Well No. 1H? API 30-015-43879.

Would it be the Sulphate Draw; Wolfcamp (Pool code 85780) or the WC-015-S252815D;Wolfcamp, Gas (Pool code 97949)?

Thanks
