Mr. Stewart:

I have received your submittal and will attend to it in the next two weeks. My most recent projects as prioritized by the Director including appearances before Commission prevailed over the regular work pending on my desk. I hope to address this and several associated items involving Mr. Seay as the my time becomes more available. Please contact me on Friday of next week, and hopefully, a few of the requests can be concluded. Thank you for your patience in this matter. PRG

Subject: RE: Cooper Industries - Cooper 8 #2

Mr. Goetze,

I called and left a voice mail regarding the information that I sent to you via FedEx on 11/23/16 pertaining to the Cooper Industries – Cooper 8 #2 and prior “corrective actions” pertaining to the Chevron – T. Anderson #10 wellbore as a condition of the EMNRD Administrative Order SWD -1613.

Please let me know via phone or email if the data previously submitted is sufficient to waive the requirement of Cooper Industries to re-enter, log to confirm cement and then re-plug the Chevron – T. Anderson #10 wellbore prior to authorizing injection in the Cooper 8 #1 (Cimarex) wellbore.

Thanks,

Michael Stewart

Mr. Goetze,

I was just checking to see if you have had a chance to review the data package that I sent you via FedEx on 11/23/16 (received 11/28/16) pertaining to the Cooper Industries – Cooper 8 #2 and the prior “corrective actions” pertaining to the Chevron – T. Anderson #10 wellbore as a condition of the EMNRD Administrative Order SWD – 1613.

I have attached a copy of the letter that transmitted the data for your reference.

Please call or email if you have any questions.

Thanks in advance for your efforts to review this data with the hopes that we can move forward with the conversion of the Cooper 8 #2 to a SWD.
